FOR IMMEDIATE RELEASE -- February 12, 2009 -- In-Room Plus, Inc. of Buffalo, NY and In-Room West, Inc. of San Francisco, CA are recalling select Honey Roasted Peanuts and Hot Cajun Mix because the products have the potential to be contaminated with *Salmonella*. This action is a result of the Peanut Corporation of America (PCA) expanded recall of January 28, 2009 for all peanut products distributed from their Blakely, Georgia facility since December 1, 2007. The recalled items were manufactured with peanuts supplied by PCA.

Salmonella is an organism, which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy persons infected with *Salmonella* often experience fever, diarrhea (which may be bloody), nausea, vomiting and abdominal pain. In rare circumstances, infection with *Salmonella* can result in the organism getting into the bloodstream and producing more severe illnesses such as arterial infections (i.e. infected aneurysms), endocarditis and arthritis. For more information on *Salmonella*, please visit the Centers for Disease Control and Prevention's web site at <http://www.cdc.gov>.
